## BARRAGE BALLOON SCARES FOOD FERRY SERVICE NEAR BERLIN; PRESSURE GROWING

**LONDON, June 30**—Foreign Secretary Ernest Bevin said today the Western Allies are considering a direct approach to the Kremlin in an attempt to settle the Berlin crisis.

**BERLIN, June 30**—One third old barrage balloon raised a false scare today that the Russians were putting up a new obstacle to the aerial food ferry route into Soviet-blockaded Berlin.

Excited U. S. air force officials, suspecting a threat to the air lifeline to Berlin, found a supposed mass of obstacles was just an old balloon that has flown a long time in the corridor between Berlin and the British zone.

The false report, presumably based on information from pilots, first came from Frankfurt and was quickly questioned by American air authorities here.

Planes already had been warned to fly above the 5,000 foot level of the supposed obstacles.

Barrage balloons were flown on cables during the war to divert enemy planes from primary targets, particularly over Britain's tightly-spaced war industry areas and heavily populated cities such as London.

**Take Another Dig**  
The official Soviet newspaper in Germany took a dig at the Western Allies' emergency air freight service into Berlin today. Some westerners feared it might portend a Russian attempt to restrict use of the air corridor food lifeline.

"Claims that this service is designed to feed Berlin are a bluff to cloak the plundering of the city by shipping out machinery and products on the return flight," said Tass's Rundschau.

Marshal Vasily D. Sokolovsky, the Russian commander in Germany, cautioned last night that he hoped flying regulations would be "faithfully followed." Some thought that also might have been a hint of forthcoming efforts to shut off the last food lifeline to the more than 2,000,000 Germans in the western sectors of Berlin.

In last night's statement, however, Marshal Sokolovsky said he hoped that train service from the west into Berlin could be resumed before the city's food stocks run out.

Commenting on that statement this morning, Col. Frank L. Mowley, the U. S. commandant of Berlin, had this to say:

"If the Russians want to lift the blockade, that will be fine. But we will wait for deeds rather than words."

In Frankfurt, top ranking American, British and French occupation officials met today to start building a new central government for Western Germany. It was hinted that the Soviet land blockade of Berlin may also be discussed.

The U. S. Army's Templehof air base announced that 157 flights had been receiving during 24 hours up to last midnight, bringing supplies to the American and German population.

This total may be exceeded today as planes are flying from Wiesbaden as well as Frankfurt airports. The British Royal Airforce also is expanding its air shuttle service to Berlin.

## TWO INJURED AS AUTOS COLLIDED

**Accidents Occur Tuesday At Separate Street Intersections**

Two persons were injured and a small girl escaped serious injury in three traffic accidents within the city Tuesday, the police department reported.

A car driven by Eva Pollock of R. D. 1, East Washington, failed to stop for the sign at Second and N. Howard ave. at 3:45 p. m. Tuesday and collided with another vehicle driven by Helen O. Gilbert of Canton.

Erdine Cork of Columbiana, a passenger in the Gilbert car, suffered abrasions of the right knee, left hand and forehead.

The radiator and grille were damaged and a headlight and fender smashed on the Gilbert car, while the right side of the Pollock car was crumpled in, as was the right fender.

The river of the latter car was crumpled.

Cars driven by Wilfred Mellett of R. D. 1, Salem, and Dale Ritchie of R. D. 2, Salem, collided at 5:35 p. m. Tuesday at the corner of Fifth st. and N. Ellsworth.

Ritchie drove onto Ellsworth from Fifth, police said, striking Mellett's car. Both cars were damaged and had to be towed away.

Wayne Ritchie, a brother of the driver, suffered abrasions of the right ankle and right arm. He was taken to the Central Clinic.

A bicyclist, Annette Cyskowski, aged nine, of 201 E. Second st., was struck by a car driven by Blair Patterson of 648 S. Lincoln ave. at 11:20 a. m. Tuesday on Sugartree alley, near the Coy garage.

Although knocked to the ground, the girl was unhurt.

## 5 Pottery Workers Get Summons To Meeting

**EAST LIVERPOOL, June 30**—Five union pottery workers who filed a recent Columbiana county court action challenging salary increases paid to two major officers of the National Brotherhood of Operative Pottery, were summoned by registered letter today to appear before the union convention July 6 in Atlantic City.

They were called to answer charges that they have "undermined the brotherhood" by instituting the court action. The summonses were signed by James M. Duffy of East Liverpool, brotherhood president, and Charles F. Jordan, of Sebring, secretary-treasurer.

The letters were received by L. A. Finlay, E. W. Johnson, and Clyde McDaniels, all of East Liverpool, Edward Jones of Sebring, and Norman Whipple of Chester, W. Va.

Counsel, who represented the petitioners in the recent court fight over salary increases collected by Duffy and Jordan, advised his clients to ignore the summonses.

## DULLES TALKS WITH DEWEY ON POLICIES

**Statement Of Foreign Policy Expected On Conclusions Today**

**By HENRY LEADER**

**PAWLING, N. Y., June 30**—Gov. Thomas E. Dewey confers today with John Foster Dulles, his foreign affairs adviser, and from the meeting may come a statement redefining the Republican presidential nominee's general position of the international situation.

Dulles was scheduled to join Dewey at the governor's farm here about 1:30 p. m. and motor with him to Albany for a long discussion tonight.

Albany and Rensselaer county Republicans plan a reception for Dewey on the capitol steps upon his arrival. He probably will speak.

**Discusses Campaign**

Dewey talked over election campaign plans with his running-mate, Gov. Earl Warren of California, here yesterday afternoon and last night. But their meeting was overshadowed by the New Yorker's expressed concern with the Russian blockade of the American, British and French sectors of Berlin.

Dewey told newsmen it was a "grave situation." When asked whether he thought it could lead to war, he said:

"We must not even consider such possibilities."

Dewey contended repeatedly in primary campaign speeches that "this is not a war crisis; it is a peace crisis." He frequently accused President Truman's administration of "bungling" and "wavering" in matters of foreign policy.

Dulles, a U. S. delegate to the United Nations General Assembly, has been Dewey's foreign affairs adviser since the governor, as GOP presidential candidate, joined with the Roosevelt administration in formulating a bi-partisan foreign policy four years ago.

Dewey told reporters yesterday he had talked with Dulles by telephone "twice a day now for several days."

The governor reserved comment on the Communist information bureau's criticism of Marshal Tito of Yugoslavia.

"I'd like to see more details before I comment," he said. He observed, however, that "when the Communists fall apart, I'm always a little dubious."

**Warren Heads Home**

Gov. Earl Warren, his running mate, returned to New York after spending the day at Dewey's upstate farm. Neither would discuss details of campaign strategy discussed at their meeting. Warren is scheduled to leave for California Saturday.

The cost of living and an Eisenhower draft meanwhile featured Democratic discussions in Washington.

Senator O'Mahoney (D-Wyo.), said a paramount issue in the presidential campaign will be "high prices and the failure of the Republican congress to adopt President Truman's program to combat them."

O'Mahoney is a member of the Democratic platform committee slated to start work next week in Philadelphia. He frequently has been mentioned as a possible second man on a Truman ticket.

But Leon Henderson, chairman of Americans for Democratic Action, said he thinks there is a possibility Mr. Truman "will listen to the advice of good friends and loyal Democrats" and withdraw his candidacy.

The former OPA administrator told a news conference he believes Gen. Dwight Eisenhower would bow to a draft order from the Democratic convention which opens July 12 in Philadelphia.

"I know the majority of the people of the U. S. want General Eisenhower for President," he said, "and if certainly will be a political force if the man the people want is not considered for the nomination."

**Might Desert Truman**

Henderson added that if either Eisenhower or Supreme Court Justice William O. Douglas declares his candidacy the President will not be nominated. He estimated that only a "shaky" 310 pledged or instructed convention delegates can be counted on to vote for Mr. Truman.

Pro-Truman forces retorted that the President now has 846 pledged and otherwise "favorable" votes—with 618 convention ballots needed for nomination.

But from New York and Pennsylvania came hints that those big delegations might not go solidly for the President. The 74-vote Keystone state group gave him its endorsement but Chairman John S. Rice said the action, not unanimous, did not bind any delegate. Many members of the Pennsylvania delegation said they want to go to the convention with "open minds."

New York's 106 delegates also were declared free to vote as individuals. Paul E. Fitzpatrick, state party chairman, said the "unit rule will not be invoked" and that the group will caucus on the convention's opening day.

## 550 Bliss Co. Workers Are Given Chest X-Rays

Five hundred and fifty workers from all shifts at the E. W. Bliss Co. plant participated in the chest X-ray program carried out Monday by the Columbiana County Public Health league, according to Executive Secretary Miss Lillian Schroeder.

X-ray work in Columbiana county will be completed today, but the examinations, which are done without charge by a mobile unit, will be resumed this fall.

## Seek Formation Of Balkan Block, Strengthen Army

**BELGRADE, Yugoslavia, June 30**—Yugoslavia's Communist leaders firmly proclaimed their independence today and called for formation of a Balkan bloc "uniting Albanian, Bulgarian and Yugoslav people on the principle of national equality."

They also recommended several steps for "general strengthening" of the Yugoslav army, by tightening up discipline and supplying the forces with "modern war technique."

"The Yugoslav army," they said, "protects the freedom and independence of the people of Yugoslavia."

The program was advanced by the Yugoslav Communists' central committee, headed by Premier Marshal Tito, for presentation to the country's fifth Communist council meeting here July 21.

It was published in Borba, the party organ, only a few hours after the committee had denounced as "lies" and "slander" the sharp condemnation by the Cominform of policies pursued by Tito and his government.

**Outline Program**

"The national independence of the people of Yugoslavia is the condition for their road to socialism and their progress in general," the committee said in presenting the following program:

One: "Further strengthening of moral and political unity for the people of Yugoslavia."

Two: "Strengthening and further developing of tight cooperation with the Soviet union."

Three: "Strengthening and further developing to tight cooperation with the peoples' democracies."

Four: "The most tight cooperation with the Peoples' Republic of Bulgaria and the peoples' republic of Albania and working on forming conditions for uniting the Albanian and Bulgarian peoples with the Yugoslav people on a principle of national equality."

Five: "Peaceful cooperation with all countries, who wish to cooperate with the Federated Peoples' Republic of Yugoslavia on the basis of honoring their independence and equality in the framework of the principles of the charter of the United Nations."

Six: "Activeness and cooperation of the Federated Peoples' Republic of Yugoslavia in the struggle of the Democratic anti-imperialistic forces of the world, headed by the Soviet union, against the anti-democratic imperialistic forces and war mongers."

Seven: "The Federated Peoples' Republic of Yugoslavia will keep backing all countries and all movements fighting for peace, who are against interfering in the internal affairs of other countries and for respecting their independence, and those who are for peaceful cooperation based on the principles of the organization of the United Nations."

Eight: "Moral and political help for the working people of Yugoslavia in workers' movements, democratic movements and national liberation movements, and to the people who are struggling for liberty, democracy and socialism."

## Berlin Today, Tomorrow What?

Public opinion in the Berlin crisis has crystallized in advance of official announcement by the United States that the issue in the beleaguered city is war.

Yet, it is plain that the government knows this and is preparing to deal with the possible consequences. Gen. Wedemeyer, chief of operations, is on the scene. Gen. LeMay, who bombed the heavy bombing operations against Japan, is on the scene. Gen. Clay, in charge of U. S. occupation forces, has warned Russia that it cannot drive the United States out of Berlin by action "short of war."

The British spokesman, Gen. Robertson, has made a strong statement. The first trans-Atlantic flight of jet fighter planes has been announced. The French government is obviously and uncomfortably aware of the potential war brewing in the Berlin area.

The United States is preparing for a showdown with Russia that may precipitate war, if that's what the Kremlin wants. It is doing this with the knowledge of the American public—knowledge which included the key fact of the whole tragic situation in Europe, that Berlin itself is relatively unimportant.

It is only the Danzig of this new crisis. Russia wants to force the western powers out of Berlin today so it can force them out of Germany tomorrow and out of Europe eventually. It is repeating the squeeze procedure made famous by Hitler not only in Danzig but in every area marked for conquest. It is hoping of the same errors made before—errors that gave the Germans what they wanted short of war so that when war finally became inevitable their position would be strong. It is hoping that France and perhaps Britain will turn to appeasement; that the western powers will disagree; that the Kremlin can divide and rule, just as the Reichschancellery was able to divide and rule. The long-awaited showdown has arrived.

## Tito On The Way Out

The Cominform's denunciation of Tito is an indication that the skids have been greased for one who was generally thought to be the Kremlin's fat-haired boy in Yugoslavia.

The reasons for the denunciation lie in the inscrutable workings of the Communist hierarchy. Perhaps Tito, like Earl Browder and many another before him, zigged when he should have zagged in attempting to follow the party line. Perhaps the Kremlin has little liking for the emphasis Tito has placed on Yugoslav nationalism. Perhaps he spoke out of turn at a party council or failed to play the role of toady which is expected of all satellite leaders. Or it could be that Yugoslavia's last vestige of autonomy is to be sacrificed as Russia maneuvers to out flank the Western Allies in Austria and Germany.

Like all dictatorships, the Communist must keep purging itself. On the lower levels this goes on continuously, keeping the Siberian work camps well staffed. On the upper levels the repercussions come at intervals.

The first great purge saw Trotsky banished in 1928 after his position had deteriorated for five years. The discrediting of Trotsky, plus Lenin's opportunist death, left Stalin in full command. The great Russian purge came in 1936 when Zinoviev, Radek, Kamenev and Tukhachevsky were liquidated. The element threatening Stalin's control was whittled down to size.

Further, Russia must be constantly aware that on the western border is a tier of satellite states with more than 100,000,000 population. They must be held in firm rein at all times. That accounts for the stiff rebuke handed Bulgaria's old-line Communist Premier Dimitro last spring when he proposed a customs union among the satellites.

Perhaps the stern edict handed Tito is the Kremlin's warning to the satellites to remember who's boss. Or it could be that Tito has been sacrificed to open Yugoslavia to Russian troops, thus promoting the cold war against the West.

## Let's Start Right

Local draft boards soon will be convening to make decisions important to many young men. Their members undertake a thankless job as they fulfill an obligation of citizenship.

The task can and should be made easy this time by directives that will not be superseded and cannot be misconstrued. Vague directives subject to varying interpretation were one of the great drawbacks of the World War II draft system. At times state and national headquarters seemed to be working at cross-purposes.

This situation needn't be repeated. This time the draft will be on a smaller scale. Wartime urgency will be lacking. There is plenty of precedent upon which to base procedure. Hard and fast rules can be set up to follow without deviation.

Draft board service can never be an unalloyed pleasure but firm directives can ease the task. A judge doesn't have to consult a set of revised statutes each time court convenes. Draft board members, who also sit in judgment, deserve the same break.

## The Stars Say

For Thursday, July 1

By GENEVIEVE KEMBLE

PLANS for change, journeys, travel and new adventures are accelerated and most propitiously aspected, according to stellar configurations.

While such efforts may be directed mainly toward a prolonged holiday schedule yet it might be profitable to take more realistic and far-reaching programs under consideration, as the mentality is keen and inventive faculties are stimulated. The romantic tendencies are likewise under favorable drive.

## For the Birthday

Those whose birthday it is, may find themselves stirred to change, new adventures, perhaps a sudden impulse to put over their very bright, ingenious and original schemes or plans, in which there may be long-range and quite unexpected denouement.

There is an urge to the novel, strange and unorthodox, with far vista to distant pastures.

The emotions are also under happy stimuli for romance, new contacts and fresh fields of conquest. Imagination and intuitions are also accelerated. These may assist in planning a safe and pleasant itinerary.

A child born on this day is possessed of much ingenuity, exceptional talents, creative impulses together with imagination and intuitive leads.

## ONE MAN'S OPINION

By WALTER KIERNAN

It looks like Ike Eisenhower will be drafted before any 19 year olds . . . registration hasn't begun but he's getting "greetings" from the Democrats.

It's not that they dislike Harry but they've taken hotel rooms for five days and they need a little opposition to keep the convention going.

The Democrats figure the Republicans went to Philadelphia with 8 candidates and they'd like to have a choice of two . . . a choice of one can be confining.

I didn't say that Harry is in danger but if that inspection train has steam up he'd better get aboard again . . . the main line looks wide open from here.

But I understand that Ike has instructed his secretary to tell anyone who looks like a Democratic state chairman that he is at lunch and won't be back until December.

It's your own fault if you're content to remain discontented.

A Michigan thief arrested for stealing twenty-four bathing suits won't need even one for ninety days.

Upset over her divorce, a movie actress went fishing. You'd think she'd want to stay single for a while.

The junkman would get a big kick out of peeking into the average girl's handbag.

A Massachusetts poet was married—and now we can expect some odes to canned beans.

## GUARDING YOUR HEALTH

## When The Pancreas Acts Up

By HERMAN N. BUNDESEN, M. D.

A disease of which we hear little is chronic pancreatitis or long-continuing inflammation of the pancreas, and yet I would venture to say that a great many people today suffer from it without realizing what causes their trouble. The pancreas is a gland located in the abdomen and, though small, it is all-important to the health of the body.

It manufactures several secretions, some of which empty into the small intestines where they aid in digestion.

One powerful chemical, known as insulin, passes directly into the blood. Insulin is necessary if the body is to use sugar properly and a decrease in the amount of this drug manufactured by the pancreas results in the disease called diabetes.

## Several Causes

Inflammation of the pancreas can come from any one of several causes. It may become infected itself or may suffer from infections of the organs against which it lies—the liver, gallbladder, and stomach. Obstructions in these latter organs, such as stones in the gallbladder or tumor of the stomach, may press against it to cause irritation.

Then, too, the pancreas may be damaged by poisonous substances such as alcohol, arsenic-containing drugs, or anesthetics.

It may also be injured as a result of accident or operations. Inflammation of the pancreas causes severe pain in the pit of the stomach. The pain may pass to the back. The pain is not related to the eating of food. Sometimes a patient has diarrhea.

If diarrhea is present, there is usually a great deal of fat in the bowel movements. Sickness at the stomach, vomiting, and loss of weight are often present.

## Lack of Insulin

In cases which have been present for a long time, diabetes, due to a lack of insulin, may occur. In many cases, not only is fat present in the stool, but also undigested meat fibers.

This latter condition, when present, is a strong indication that the pancreas is diseased.

If disease of the pancreas is suspected, a thorough study is indicated. A careful X-ray examination of the duodenum or first part of the bowel is advisable, since, if the duodenum is deformed, it is an indication that some disturbance of the pancreas may be present. There are

case the walls of the blood vessels become thickened, and there may be a clot in the blood vessels.

This tends to shut off some of the blood that should be carried to the muscles and other tissues of the leg. The earliest symptom of the disease is a pain in the calf of the leg or foot, especially after exertion. Color changes usually appear in the foot, the foot becoming a purplish-red when held down, and white when it is elevated.

There have been many types of treatment advised for this condition. Injecting a salt solution into the veins is of value. Exercises, such as raising and lowering the foot at stated intervals, are also recommended. Cutting certain nerves which supply the blood vessels, or injecting alcohol into them may also be helpful.

Letters to Dr. Bundesen should be addressed in care of 235 E. 45th St., New York City.

## BUSINESS FAILED TO SELL ITSELF

CLEVELAND, June 30—American business leads the world in production, but it has not done a good job of selling its system of operation, President Robert E. Woodruff of the Erie railroad said today.

Addressing the opening session of the Association of American Railroads' Accounting division, he declared there is a crying need to develop understandable economic information on how the nation's business functions.

"Our greatest problem today is to overcome the economic ignorance and misunderstanding that is

## 20 Cab Drivers Get Mate's Taxi Back

COLUMBUS, June 30—More than 20 Columbus taxi drivers formed a "posse" in the wild west manner early today and captured a man sought for beating a cab driver and stealing his vehicle.

Homer Grimm, 34, a cab driver, was beaten over the head with a bottle by a passenger he had picked up at 2 a. m. The man forced the driver from the cab and drove away.

The alarm went out to other drivers over the taxi firm's radio system, and 20 drivers took up the chase, cornering the stolen cab and "boxing" it in at a downtown intersection. The driver of the stolen cab, who gave his name as Glen Smiles, 45, did not argue further. He surrendered to police who by that time had arrived on the scene.

The man was held for investigation of armed robbery. He told police he took the cab because he "wanted to go to jail."

Fresh paint spots may be removed from clothing by saturating with turpentine and spirits of ammonia.

Miniature white arbors entwined with rambler roses and honeysuckle and "shadow" boxes fashioned of lace doilies and black paper, with sweetpeas for the center, made the attractive table setting for the Salem Garden Study club's annual dinner party Monday evening in the Alliance Country club.

The songs entitled "Song of Praise," "Garden Spirits" and "Garden Club of Ohio" were sung last evening by Mrs. Herbert Yengling. Her concluding number was "I Love a Little Cottage."

Hostesses for the party, besides Mrs. Weirich, were Mrs. Duncan, Mrs. Dana Floding, Mrs. Fred Koenreich, Mrs. Robert Wentz, Mrs. Homer Taylor, Mrs. Carl Lehwald and Mrs. Richard McConner.

**WHY "Stepping Down" IS SO IMPORTANT TO YOU**

Hudson amazes motor-car world by giving vital "step-down" zone—not available in any other car—to bring you riding qualities and safety beyond anything known before!

Word's going "round-and-fast, too—that Hudson gives you a "sweet," smooth, safe ride that is a new high in motor-car performance!

Perhaps you've heard pleased and proud Hudson owners talking about this exciting new experience, but here's something you may have missed hearing:

The key to this amazing new ride lies in that area just under the floor of the average car, which in the New Hudson becomes the "step-down" zone—as illustrated in the sketches at the right.

This "step-down" zone is all-important, because experience has shown that the lower to the ground a car can be built, the better it will handle, the more stability it will have, the safer it will be, and thus the more enjoyable and comfortable will be your ride.

Hudson, and Hudson alone, has accomplished a near miracle of low-built streamlining and smooth, safe, comfortable riding with a new type of base frame which surrounds the passenger compartment, and thus permits the floor to be lowered down within it. Recessing the floor creates the "step-down" zone and a center of gravity that is the lowest

in any American stock car—yet road clearance is ample!

That's why Hudson has a hug-the-road way of going, even in cross-winds, and on every conceivable kind of highway. When you see how this car takes even the sharpest curves, it will spoil you for any other type of automobile! You sense this delightful conformity to the road the minute you begin your ride; and this stability, plus the protection of riding encircled by a sturdy box-section steel frame, gives you a grand feeling of safe well-being.

Sitting in this car is as downright satisfying as stretching out in your favorite easy chair. You ride on seats that are lowered and cradled ahead of the rear

wheels and, even with its low silhouette, this breathtakingly beautiful motor car gives you more head room than any other mass-produced car built today!

Hudson's use of the vital "step-down" zone in its exclusive, all steel Monobuilt body-and-frame is a development that required years of engineering work, the perfection of new production techniques, and millions of dollars in highly specialized new plant investment. Perhaps this explains why Hudson alone offers this new design principle today.

The nearest Hudson dealer has a booklet—yours for the asking—which explains how "stepping down" brings you advantages beyond anything known before! Hudson Motor Car Co., Detroit 14.

\*Trade-mark and patents pending.

**OTHER CARS**—Here you can see that any car with floor on top of the frame, as shown above, fails to utilize that all-important space between frame members (herebefore wasted by placing floor on top of the frame). This results in a high center of gravity, and either a high roof line or insufficient head room.

**NEW HUDSON**—Here the important space between frame members, shown above, becomes the "step-down" zone—a highly useful addition to interior passenger roominess that creates a low, lower center of gravity, which in turn permits greater safety, improved roadability and ride, a low, streamlined silhouette.

**WE, THE WOMEN**

By RUTH MILLETT  
He eats his morning meal silently, with a newspaper in front of his face.

He brands all gossip as "absurd," but always hears a choice bit through to the end before striking that noble attitude.

He never says, "Where did I put so-and-so, I wonder?" when he is hunting for a lost article. It's always, "Where did YOU put this or that?"

He hates to eat out.

He has a condescending attitude toward any project undertaken by a "bunch of women."

He can't be nagged or argued out of an idea. But he can often be kidded out of it, if the kidding is good-natured.

## • OBITUARY •

## DR. WILLIS HOTCHKISS

Funeral service for Dr. Willis Hotchkiss of Lakewood, who died of a cerebral hemorrhage Friday at his home, was held Monday afternoon in the First Friends church, Cleveland.

Dr. Hotchkiss, who was the second pastor of the Salem First Friends church, left here to engage in mission work in British East Africa. He arrived at the mission post in October, 1895, and was in mission work for 40 years.

The British government recognizing his work in Africa, made him a member of the advisory council of the native land board.

It was under the inspiration of his message, a missionary convention in the First Friends church here a few years ago, that the Men's Missionary movement of the Salem church was formed, the organization being the first of its kind in Ohio. He was the main speaker at a convention here in May.

Besides his wife, Mary, he is survived by two sons by a former marriage.

## Case Tech Reveals Discovery Of Star

(By Associated Press)

PASADENA, June 30—Scientists at Case Tech's observatory in Cleveland have discovered a "super-giant red star" estimated at 10,000 times brighter than the sun, a Case observer reported today.

Dr. J. M. Nassau, director of the Cleveland observatory, said in a paper which he read to a meeting here of the American Astronomical society that he believed infra-red photography had enabled Case to penetrate deeper into space than ever before in the history of astronomy.

Infra-red rays were used in the current discovery made by Dr. Nassau and G. B. Van Albeda of Amsterdam, Holland, visiting Case professor, Nassau said.

Dr. Nassau said infra-red photography had to be used in such discoveries of "red" stars, which are "terrifically luminous" and exude most of their light in the infra-red range.

"It seems to me," he continued, "that through the study of giant red stars we have been able to reach the limit of our own galaxy."

He said the new star either was at the limit of the sun's galaxy, or outside the galaxy's rim, and was the "first discovery" of its type. Its distance from the earth was estimated at 20,000 light years.

## ATTEMPT TO AVERT STRIKE AT TIMKEN'S

(By Associated Press)

CANTON, June 30—A federal conciliator stepped into a wage dispute here today in an attempt to head off a scheduled walkout of Timken Roller Bearing Co. employees at midnight tonight.

Conciliator T. W. Robertson of Cleveland called a parley of CIO-United Steelworkers unionists and Timken officials for today to consider union demands for 11-cent hourly pay increases and ousting of alleged wage inequities.

Robertson's action followed a statement by District Union Director I. W. Abel that unionists would walk out after midnight tonight if a working contract expiring then is not extended or replaced by a new agreement.

Abel said unionists in Canton, Columbus, Wooster, Zanesville and

Mount Vernon plants of Timken, which employ about 13,700 workers, had authorized union officials to call a strike, if necessary to enforce union demands.

Timken officials earlier announced their plants would be shut down for two weeks starting next Monday for yearly vacations and inventories.

"Soft words reduce friction," he said, "create an atmosphere of peace and free the deep resources of the mind to give the right answer to problem confronting the quarrelling pair."

## INCREASED FARM INCOME IS SHOWN

WASHINGTON, June 30—Farm income, boosted by sharp increases in meat prices, climbed high enough during the month ended June 15 to more than offset rising living costs, the Agriculture department reported today.

Despite the fact that living costs equalled last January's all-time high, the department said, farmers were better off. Increased farm income was sparked by a \$3.30 per hundred pound rise in hog prices. Prices for beef cattle, veal calves and lambs set new records in mid-June, the department said.

The index of prices received by farmers—based on the 1909-14 average of 100—was 296 on June 15. This compared with 289 on May 15 and 271 a year ago. The record was 307 last January.

The index of prices paid by farmers, including interest and taxes, was 251, equalling last January's top. It was 250 in May and 230 a year ago.

Comparing prices paid with prices received, the department measured the farmers' mid-June purchasing power at 118 compared with 116 last month. It was the same as in mid-June of 1947. The all-time high was 133 in October, 1946.

## Lehmans of North Lima Will Sail For Ethiopia

The unit, located at Nazareth, a city of approximately 5,000 population, includes a hospital center and educational institutions. In the unit are about 15 persons, including a doctor, nurses, a dietitian, teachers, and maintenance workers.

Mrs. Lehman is the former Margaret Swope, a daughter of the late Mr. and Mrs. Emanuel Swope. Both are graduates of the North Lima High school and of Goshen college, and both have been teachers in the North Lima school. Their son is 16 months old.

They are members of the Midway Mennonite church, where Mr. Lehman has been serving as superintendent of the Sunday school.

## FIND SMUGGLED DOPE IN N. Y. GARBAGE SCOW

NEW YORK, June 30—A fortune in smuggled morphine and heroin was found yesterday on a scow after officers had spent four days digging through 200 tons of garbage.

Value of the dope was estimated variously from \$800,000 to \$2,000,000. Six persons are being held on charges of smuggling narcotics.

Sifting of garbage on a scow anchored off Staten Island began after police were tipped that a dope smuggler, fearful of capture, had tossed a burlap bag containing the narcotics onto the scow from a liner.

Discovery of the dope was announced by police.

## Resigns Federal Post; Pay Too Low

WASHINGTON, June 30—Dr. J. W. Studebaker has resigned as U.S. commissioner of education, saying "I can no longer afford to remain in the federal government."

President Truman accepted the resignation, effective July 15.

In his letter to Mr. Truman, Dr. Studebaker said he has continued as commissioner for 14 years "through the darkest years of economic depression, the period of defense preparations, the strenuous years of war, and three very difficult years of post-war readjustment."

"Along with too many other men, the time has now come when I can no longer afford to remain in the federal government," he said.

Mr. Truman in reply expressed regret, and told Studebaker: "I can fully understand the situation."

## JIMMY THOMPSON LEADS OPEN PLAY

Stranahan In Running In British Open; Hopes For Little Slam

(By Associated Press)  
MURFIELD, Scotland, June 30—Jimmy Thomson, Los Angeles professional, and Frank Stranahan, Toledo amateur, led a contingent of nine American golfers into the first 18 holes of medal play today in the British Open championship.

The close of the 36-hole qualifying round left 97 survivors for the final 72 holes of the tourney. Another 18 holes will be played tomorrow, after which the 40 low scorers advance into the final 36 holes Friday.

But it was the veteran British professional, Henry Cotton, who held the spotlight in the qualifying play. Cotton fired a pair of 69's for a 138 total.

Roberto De Vicenzo of Argentina and Fred Daly, the defending champion from Ulster, were next with 140's.

Thomson, the long-hitting California pro star who was born near Murfield, was low for the American group. He shot a 75 yesterday, which gave him a 143 after his sparkling 68 of Monday.

Stranahan, who won the British amateur title recently and is aiming for a "little slam" in this meet, had a 70-75-145. He was runner-up in the British open in 1947.

Three other Americans had 144's for the qualifier. They are Lawson Little, Cleveland, twice winner of the British amateur; Capt.

Ed Kingsley Utah player serving with the army of occupation in Germany; and Arthur Clarke, Huntington, W. Va. Claude Harmon, Mamroock, N. Y., had 145; Johnny Bulla, Phoenix, Ariz., and Charles Rotar, Canton, O., pro with the army in Germany, each 148; and Bobby Cruikshank of Virginia, 152.

Cruikshank barely made the top qualifying score of 152, lowest in the tournament's history.

## Hunting and Fishing Notes

H. M. Cannell, supervisor of Conservation district No. 3, with headquarters at Twinsburg, today warned the general public especially in the deer counties of northeastern Ohio against picking up baby deer which appear to be motherless.

Although in most cases the practice can be traced to good intentions on the part of the "rescuer," nevertheless it is illegal and tends to upset nature's system of protection for young wildlife.

There may be cases, but they are rare, when a fawn is orphaned. A fawn which seems to be stranded or orphaned should be left alone. The mother deer can usually be found 50 to 75 yards away keeping a close watch over her offspring.

## Fight Results

SEATTLE — Joey Maxim, 182, Cleveland, outpointed Bill Peterson, 198, Seattle, 10.

CHICAGO — Bob Satterfield, 174½, Chicago, knocked out Billy Smith, 174, Oakland, Calif., 1.

## Rendezvous with Death

While 11,000 spectators watch aghast at the Dayton, O., Speedway, driver Johnny Shackleford, Jr., 34, of Dayton, hurtles through 30 feet of board fence, before he plunged down a 40-foot embankment to his death. A veteran of 12 years of auto racing and midwest point standing champion in 1947, Shackleford lost control of his speeding Iddings Offenhausers on the third lap of a 20-lap race.

## Heavyweight Rows Begin Over Crown

Louis On Vacation; Things Already Popping Toward Settlement of Title

(By Associated Press)  
NEW YORK, June 30—It's been less than five days since Joe Louis laid his crown aside but already

there is considerable stirring in heavyweight boxing ranks. Here are the rapid fire developments:

1. Ezzard Charles, the Cincinnati light heavyweight who is rated a leading contender, is reported ready to "fight from one to ten" for the championship, and, as a starter, is signed to meet Jimmy Bivins of Cleveland in Washington Aug. 2.
2. Guslesnevi, the world's light heavyweight champion who is one of the "big three" in the heavy picture that includes Charles and Jersey Joe Walcott, expressed delight over the prospect of a September bout with Walcott.
3. Walcott said he didn't think much of a proposed tournament to decide Louis' successor. He said he figured that his two bouts with the Brown Bomber earned him a sort of "crown prince" role and he should fight either Charles or Lesnevich, not both, for the title.
4. Jack Solomons, leading British promoter, counted himself in on the deal and announced plans to have a part in the series to determine the new champion.

The most ambitious talk came from the camp of Charles, the speedy 175-pounder who has lost only one decision—a split verdict to Elmer (Violent) Ray—since he got out of the army. Charles later knocked out Ray.

Louis, meanwhile, is golfing daily. He will leave this weekend for French Lick, Ind., for a vacation.

The Deming softball team of the city league will play the Alliance West Enders at 7:30 tonight at Salem's West End park. The Alliance nine is a strong contender in its own city league.

## FELLER WINS ONE AS INDIANS HIT

Give Fireballer Some Backing As Detroit's Big Hurlers Fail

DETROIT, June 30—Bobby Feller had proof today that there was nothing wrong with his pitching that a few Cleveland Indians base hits wouldn't cure.

Breaking a string of anemic hitting in which they scored only eight runs in the last 557 innings that Feller pitched, the league-leading Indians exploded for 11 hits and six tallies yesterday to give their fireballer a 6-2 victory over the Detroit Tigers.

Manager Lou Boudreau led the Tribe attack on loser Hal Newhouser and two other Detroit hurlers with three hits in four trips, including a two-run homer in the first inning which gave Feller a 2-0 working margin. Boudreau's seventh circuit clout followed a single by Bob Kennedy.

The Indians sewed up Feller's seventh victory against eight losses in the third with a three-run outburst which shelled Newhouser from the mound. The Detroit southpaw suffered his sixth loss, compared with nine triumphs.

Kennedy again started the rally with his second single, moved to third on Boudreau's one-bagger and tallied on a long fly by Alie Clark. Joe Gordon's single and a two-run double by Ken Keltner completed the game-winning rally.

Feller struck out eight, walked only two and scattered eight hits as he limited the Tigers to single runs in the third and ninth in the opener of a three-game series. Catcher Jim Hegan matched the Detroit run in the ninth with his fourth homer off relief hurler Al Benton.

The Indians' victory, coupled with Washington's triumph over Philadelphia, lifted Cleveland to a full game ahead of the challenging New York Yankees and the Athletics.

Bob Lemon, leading major league winner with 10 victories, will bid for his 11th win in 17 starts tonight against Detroit's Art Houtteman, who has won two and lost nine games this season.

## Says His Yankees Make Grade After 7 to 0 Win; Cleveland Gains Ground

BY JOE REICHLER  
Associated Press Sports Writer  
Manager Bucky Harris of the New York Yankees put his neck in a noose today by predicting flatly his world champions would win the American league flag again.

This sudden burst of frankness on the part of the Yankee skipper might have been prompted by last night's 7-0 victory over the formidable Boston Red Sox.

It wasn't so much the victory, as the fact the triumph came on the anniversary of the start of their epochal 19-game winning streak of last year.

A year ago yesterday the Yankees defeated Washington, 3-1, and went on to capture their next 19 games to make a shambles of the American league pennant race.

A season record Yankee stadium crowd of 70,491 saw Ed Lopat handcuff the Sox with three singles. Ted Williams got one of them to extend his consecutive hitting streak to 15 games. But his average dropped three points to .412.

The victory enabled the Yankees to move into second place, six percentage points ahead of the Philadelphia Athletics and only one game behind the front-running Cleveland Indians.

Fireballer Bobby Feller gave a display of his old time form, pitching the Cleveland Indians to a 6-2 triumph over the Tigers in Detroit.

Washington snapped the Athletics' seven-game winning streak, defeating Philadelphia 5-3, in a night game in Philadelphia. The victory boosted the Nats into fifth

place, ahead of the Tigers. The Chicago White Sox moved within two and a half games of the seventh place St. Louis Browns by defeating the Browns, 4-1, in another night game in St. Louis.

The first three teams in the National league had a bad day as Boston, St. Louis and Pittsburgh all went down to defeat. As a result, the fourth place New York Giants closed the gap between themselves and the top three games.

The Giants poled five home runs out of Braves field to swamp Warren Spahn and the Braves, 11-3, in a night game in Boston. Sid Gordon paced the Giants' 17-hit attack with two home runs, one with the bases loaded. It was his third grand slam homer of the season, only one behind the record.

The Braves retained their first place lead of half a game over the St. Louis Cardinals as the Redbirds were whipped by the Cubs in Chicago, 3-1.

A pinch single by Howie Schultz in the 14th inning scored Ted Kluszewski from third with the run that gave the Reds a 6-5 victory over the Pirates in Cincinnati in the longest National league night game of the year.

A two-base miff of a fly ball by Centerfielder Carl Furillo paved the way for two Philadelphia runs which gave the Phils a 2-1 victory over the Dodgers in a night game in Brooklyn.

BROOKLYN (Coney Island Velodrome) — Joey Carldo, 140½, Youngstown, and Willie Beltram, 139, New York, drew, 8.

## ANNOUNCER TAKES DISPLAY WINDOW

Lives In Store Window  
In Quest For Home;  
Idea Goes Over

(By United Press)  
SIOUX FALLS, S. D., June 30—A young radio announcer moved into a department store display window today.

He said he plans to live there. He can find no other home.

While puzzled shoppers peered through the window, Wayne Pritchard, 29, of station KJHO stuffed shirts and socks into drawers, hung up his suits and sat down in an easy chair to look over the place.

The storekeepers equipped the window with furniture, a telephone and running water and agreed to let him stay one week while he looks for a more permanent home.

"Maybe this will jar things loose around here," Pritchard said, "so veterans can find a place to live."

He plans to broadcast a daily two-hour record and chatter show from the window.

Pritchard's wife is living in a small room, vacated for two weeks while the usual occupant is on vacation.

The announcer got his temporary home through a newspaper ad.

"My wife likes to think I'll be hanging up my hat at night. I'll be there in the morning," the ad said. "In other words we need a place to live. So do dozens of other ex-GIs in Sioux Falls."

"Got a house? An apartment? A barn, silo, shed? Empty store window? Vacant attic? I'll live anywhere."

So the store turned a display window into a luxurious apartment and invited him to move in. The manager told him to make himself at home—do anything he wants. "If you get hungry just call us," he said. "We'll send in your meals. When you get ready to go to bed just pull down the blind."
